

GTX Free Spool System

This series is our answer to the increasing demand for small free spool reels for target fishing not only for carp and pike but also walleye, eel and trout. The new Balzer free spool system with the finely adjustable free spool drag facilitates unimpeded lifting of the fish.

Quick Stop System (730 BR and 740 BR) as well as long-distance casting spools and Anti-swing system make fishing genuine pleasure

GTX BR 7 Bearing System

- 6 precision ball bearings plus 1 needle bearing
- Balzer free spool system with sensitive adjustment
- Quick-Stop System (Q.S.S.) advantages: immediate rotor-stop for striking with immediate contact
