

Edition Royal IM-10 Series by BALZER

Power, sensitivity, precision!

This rod series constitutes a real highlight in the Balzer rod program. In a complex process and under high pressure a layer of 24(!) high-performance fibers are wound around the special IM-10 solid carbon fiber blanks. This so-called Kev-Power-Winding method (K.P.W.), makes the rods incredibly powerful with the absolutely unique "Fast Taper Action". This action allows astonishing precision casting and, at the same time, maximum distances. You can feel it immediately! Furthermore, Kev-Power-Winding renders the rods amazingly stable, so that they can master even extreme situations with great certainty.

The remaining equipment and finish is, of course, of the very finest:

- IM-10 carbon fiber
- Precision Nylon-ABX/stainless steel reel seat for perfect reel positioning
- Elegant handle made of natural Portuguese cork with the brand name on it
- Super-slim, chrome-plated titanium SIC guides sealed with epoxy lacquer

Kev Power Winding (K-P-W): woven from 24 Kevlar high performance threads for maximum dynamism, power and stability.

All put-in connections with metal ferrules for utmost stability.

Precision Nylon-ABS/stainless steel reel seats for perfect reel positioning.

Extra-slim, chrome-plated titanium SIC guides.

Elegant cork branding.

Foldable hook holder.

Edition Royal IM10 Spin 25

Wonderfully sensitive spin rods for fishing with small artificial bait. The fine Fast Taper tip casts even the most lightweight bait with great accuracy and makes for good play.
